

November 5, 2020

Dear Families,

As Partners In Excellence continues to monitor the CDC and Department of Health Guidelines along with our own practices, we have made a few small changes to our Health Screen and In Center Practices.

The MN Department of Health created a Home Screening Tool for COVID-19 Symptoms which lists the common symptoms for COVID-19 in two groupings. You will see these outlined on our updated Health Screen, and at the end of the In Center Practices. Please continue to monitor yourself and your child(ren) for these symptoms daily and reach out to your health care professional with questions. We have a link to our In Center Practices available at www.partnersmn.com for your reference. If your child(ren) will be absent from Partners In Excellence, please call the Client Attendance Line (CAL) at 952-491-9885.

We have also learned from the MN Department of Health that Essential Health Care Workers who have had direct contact with someone testing positive with COVID-19 may continue to work, while watching for symptoms and wearing “a surgical face mask for source control.”

Lastly, Partners In Excellence realized as we are approaching cooler weather, clients will bring additional jackets, snow pants, boots, etc. We may be using our client lockers again and updated our In Center Practices to reflect this change.

If you have any questions, comments and concerns please reach out to your child(ren)’s Program Supervisor, Center Manager or email hotline@partnersmn.com.

Be well,

Carrie Mortensen
Administrative Assistant
